

15th TRANSPLANTATION SCIENCE SYMPOSIUM

May 24–26 • Victoria, BC, Canada • www.tss2017.org

CO-CHAIRS

Megan Levings, Canada
Lori J. West, Canada

EXECUTIVE COMMITTEE

Shane Grey, Australia
Stefan G. Tullius, USA

SCIENTIFIC PROGRAM COMMITTEE

Karen Dwyer, Australia
Hiroto Egawa, Japan
Edward K. Geissler, Germany
Fadi Issa, UK
Xian C. Li, USA
Giovanna Lombardi, UK
Nancy Kwan Man, Hong Kong
Irene L. Noronha, Brazil
Qizhi Tang, USA
Ondrej Viklicky, Czech Republic

The Transplantation Society will be holding its **15th Transplantation Science Symposium** (www.TSS2017.org) in Victoria, BC, Canada from May 24-26, 2017. This is the second time the Transplantation Science Symposium (formerly Basic Science Symposium) will be held in Canada. Previous Basic Science meetings have been held in Cape Cod (USA), Paris (France) and Lorne (Australia) and have left a significant record of achievement locally and internationally. We are certain that this meeting will provide a wonderful opportunity for transplant researchers in the Asia-Pacific region, and for participants from Europe and the Americas, to learn from outstanding international immunologists and transplantation biologists while visiting this stunningly beautiful region of the world.

The TSS 2017 will provide a forum for presentation and discussion of cutting-edge basic and translational science in and beyond transplantation. We are planning a stellar line-up of regional and international speakers covering a range of topics in immunology, metabolism, the microbiome, carbohydrate biology, stem cell engineering and tissue repair. We are also excited that the Canadian National Transplant Research Program will host a session on “crossing boundaries” in which transplant research that integrates traditionally distinct domains will be discussed, and it demonstrates that this meeting is strongly supported by the local Transplantation community.

The meeting is run as efficiently as possible to keep costs down to allow junior scientists and researchers from around the world to attend this meeting, with a number of programs to achieve this. However, we need partner organizations to support us by providing sponsorship in order to deliver this world-class meeting. We are seeking sponsorship from organizations such as yours, and have provided in attachment samples of opportunities that we offer, but we would be happy to discuss other areas of involvement you may wish to explore.

We look forward to your involvement with the transplantation science community. Please do not hesitate to contact Catherin Parker (catherin.parker@tts.org) at TTS to further discuss.

Sincerely,

Lori J. West and Megan Levings
TSS 2017 Co-Chairs

15th TRANSPLANTATION SCIENCE SYMPOSIUM

May 24–26 • Victoria, BC, Canada • www.tss2017.org

TSS 2017 – CORPORATE SPONSORSHIP OPPORTUNITIES

Platinum sponsor:

\$10,000 USD / \$13,000 CAD

- Exclusive sponsorship of a session on one of the major topics identified by the Scientific Committee. This session will be presented to a target audience of transplantation scientists, with no other competing activity.
- Exposure and acknowledgement as a PLATINUM SPONSOR of the Symposium in marketing activities.
- Acknowledgment on signage outside of the room where the chosen session is held
- Inclusion of logo & company name on the Symposium website with a link to company website
- One (1) skirted table and two (2) Chairs in the exhibit area
- Two (2) full Symposium registrations for Company representatives
- Recognition from the Symposium co-chairs in welcome address
- One (1) bag insert into our delegate material

Gold Sponsor:

\$7,000 USD / \$9,000 CAD

- Co-sponsorship, with another academic Society, of a session on one of the major topics identified by the Scientific Committee. This session will be presented to a target audience of transplantation scientists, with no other competing activity.
- Exposure and acknowledgement as a GOLD SPONSOR of the Symposium in marketing activities.
- Acknowledgment on signage outside of the room where the chosen session is held
- Inclusion of logo & company name on the Symposium website with a link to company website
- One (1) skirted table and two (2) Chairs in the exhibit area
- One (1) full Symposium registration for a Company representative

Silver Sponsor:

\$5,000 USD / \$6,500 CAD

- Co-sponsorship, with another academic Society, of a session on one of the major topics identified by the Scientific Committee. This session will be presented to a target audience of transplantation scientists, when there is no other competing activity.
- Exposure and acknowledgement as a SILVER SPONSOR of the Symposium in marketing activities.
- Acknowledgment on signage outside of the room where the chosen session is held
- Inclusion of logo & company name on the Symposium website with a link to company website

Contributor: Coffee Break with Poster Session

\$2,500 USD / \$3,250 CAD *each Break*

May 24th 2017 / 14:30-15:45 OR May 25th 2017 / 10:00-11:15

- Acknowledgement as a CONTRIBUTOR in the on-site program as well as the Symposium website
- A tent card with company logo will be placed on tables where coffee will be served
- Acknowledgment on meeting signage

Contributor: Badge Lanyards (Exclusive)

\$1,200 USD / \$1500 CAD

- Badge lanyards with the company logo (to be provided by sponsor), provided to each delegate
- Acknowledgement as a CONTRIBUTOR in the on-site program as well as the Symposium website

Contributor: Insert in the delegate material

\$1,200 USD / \$1500 CAD

- One (1) insert into the delegate material
(Subject to approval by the co-chairs)

15th TRANSPLANTATION SCIENCE SYMPOSIUM

May 24–26 • Victoria, BC, Canada • www.tss2017.org

Session Titles/Topics

- 1) Transplant Research Crossing Boundaries (by CNTRP)
- 2) Immunometabolism
- 3) The Microbiome and Transplantation
- 4) Stem Cells & Genome Engineering
- 5) Tissue Repair and Wound Healing
- 6) Imaging in Transplantation
- 7) Innate Immune Memory
- 8) Big Data Science
- 9) Sugar (Carbohydrate) Coated Transplants

The Supported Sessions will be selected on first come, first served basis. Therefore, you should submit your interest in supporting a specific session as soon as possible to secure your space in the program.

In order to be able to be considered, confirmation of support and receipt of the name of the proposed speaker for the supported Session should be received no later than October 3, 2016. Past this date, the Organizing Committee will initiate speaker invitations, and available slots may be filled.

Speakers will receive free registration to the Symposium, a travel allowance depending on their region, and 2 nights at the Symposium Hotel.
